

COVID-19 Policy Potomac Playmakers

Updated November 16, 2021

All cast and production team must be fully vaccinated against COVID-19 in order to work on a production of the Potomac Playmakers. This includes actors auditioning for a show, actors who are cast, directors, assistant directors, stage managers, props masters, stage hands, costumers, musical directors, choreographers, and any others that may be added to the team.

All volunteers working at a performance in the light/sound booth, box office, concessions, and production sales must wear a facemask in the theatre if they are not fully vaccinated.
